

**Crew Enterprise operates a discount scheme** to maintain access wherever possible for smaller organisations to training and consultancy services. Discount availability is limited and may not be offered in all instances, the following is a guideline of the scale that is assessed by submitting our application form.

Discounts for 2011 are available for registered charities and NGOs that are registered with OSCR or Companies House. These organisations cannot be branches of national organisations that do not satisfy any other criteria and all must be below £500,000 in turnover.

Annual Turnover	Discount up to
<£500,000	10%
<£200,000	20%
<£100,000	40%

Example types of Organisation:

Social Care	Community
Housing Ass.	Education
Ethnic Minority	Employability
Disability	Substance Use

Other criteria considered might include whether the training or consultancy will assist capacity building within the organisation and how the organisation intends to use the input.

#### About Crew:

Crew specialise in peer-led education for the reduction in the harm caused by drug use. The organisation achieves this by providing culturally credible information through peer educators to people using substances. This is delivered through a variety of channels including a shop, outreach services and on-line.

The organisation advocates informed decision-making based on this up-to-date information. Crew has developed a Stepped Care approach to those that wish to regain control over their drug use and trains professional and front line staff in its techniques.

Award winning Crew informs local & national government, shares information with hundreds of agencies, collaborates with project work internationally, and can be seen at work in national media.
